

Cone point – turning lathe

Name of machine:

Böhringer VDF DUE 560

Highlights:

- >> Magnetic disk
- >> Hard turning
- >> Digital Display
- >> Taper turning device

Machine Description:

Great flexibility with high accuracy.
Turning the 0,01mm field, and longitudinal plan.

Work piece spectrum:

E.g.: Flanges, Discs, shafts, spindles.

Technical details:

Work piece length max. 2000mm max. Diameter 350

Work piece length 250 mm max. Diameter 560 mm

Travel:

1. X = 560 mm
2. Z = 2.000 mm
3. Z1 =
4. Taper turning
