

CNC – turning machine

Name of machine:

Heid S200

Highlights:

» 12-fold revolver with 6 driven tools

Product image:

Machine description:

Turning lathe, which can milling and boring, for small and medium series.
High-precision and much variable.

Workpiece spectrum:

Flanges, discs, wheels, covers, shafts, spindles

Technical details:

- » Work piece-diameter to 180 mm
- » Work piece-length to 750 mm
- » Control system Siemens 810

Traverse:

1. X = 800 mm
2. Z = 300 mm
3. Driven tools thread to M12
4. Steady rest from 20 mm to 165 mm
