

CNC – turning machine

Name of machine:

NEF 560

Highlights:

» double-toolholder

Machine description:

Turning lathe for component parts, small and medium series

Work piece spectrum:

Flanges, discs, wheels, covers, shafts, spindles

Technical details:

» Work piece-diameter to 250 mm

» Work piece-length to 750 mm

» Control system Eltropilot 1

Traverse:

1. X = 300 mm

2. Z = 800 mm
