

CNC Vertical lathe machine

Name of machine:

Pittler PV SL2

Highlights:

- >> 2 Revolver
- >> 12 driven Tools
- >> Loading for 12 Parts

Product image:

Machine description:

Self-loading vertical turning machine which can also mill and drill for small, medium and large series production. Highly accurate and highly variable.

Work piece spectrum:

Flanges, pulleys, wheels, caps, wave

Technical details:

Piece- diameter to 300mm

Work piece length to 200mm

Control Siemens Shop Turn

Travel:

1. X = 920 mm

2. Z = 280 mm

3. Driven tools to M16, drilling up to 30mm
